

Never Lose a Project File Again

Procore makes it easy to keep track of all your project files. Documents, plans, digital photos, even faxes – all of your project information can be safely and securely kept in Procore's online archive. Project team members always know where to find that vital document – it's in Procore.

Every file kept in Procore is continuously backed up on redundant hard drives, which means you'll never lose a file to a disk crash again. Best of all, Procore provides unlimited capacity for your documents, with no additional charges for disk space or bandwidth usage.

Procore's permission settings mean that users only see the files and directories they need. Documents can be marked as private, and user access to any document can be granted or removed with just a click of the computer mouse.

Getting documents into Procore is a snap. Multi-file upload makes it quick and easy to upload entire directories from a user's computer into the Procore project archive. Files can also be emailed or faxed directly into the archive, making it simple to use Procore as your one-stop location for project files.

Procore's Online Archive – unlimited storage on the web, for all your project documents and digital photos.

1. Easy to Organize

Save your documents in as many folders as you like. Add folders and locate files with a click or two.

2. Document Permissions

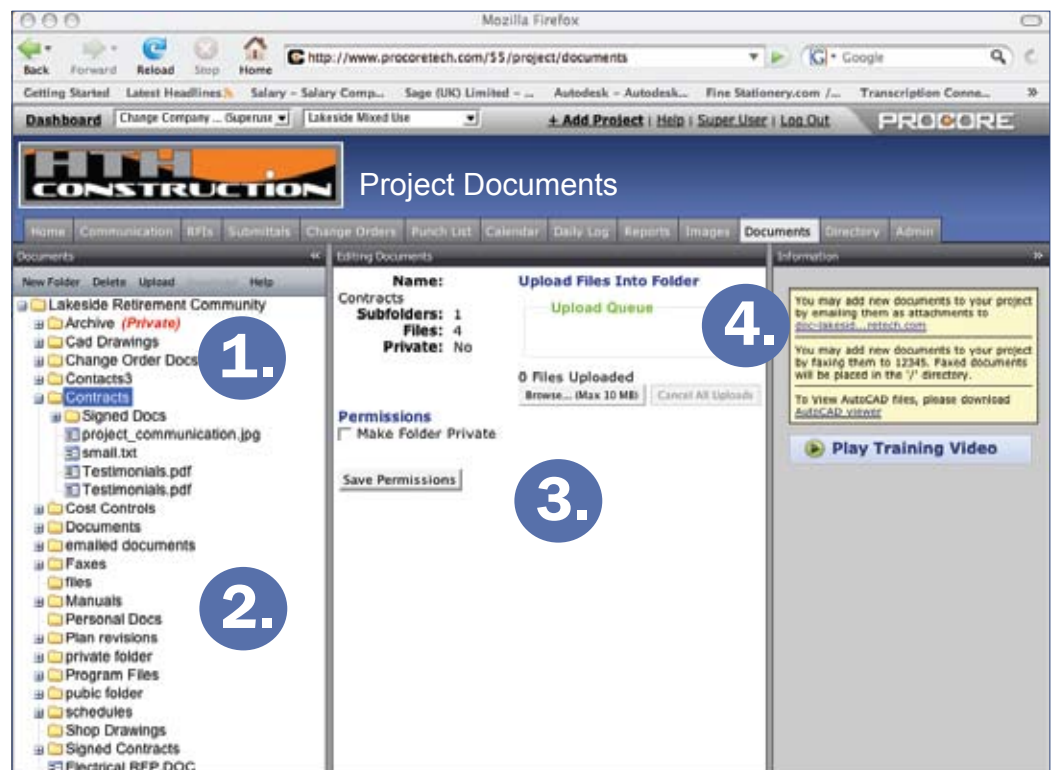

Make sure users see only the documents they need. Set user access by name or project role.

3. Unlimited Storage

Keep all of the files you want in the Documents section. There's no space limit, and no extra charges for data storage.

4. Add Documents by Email

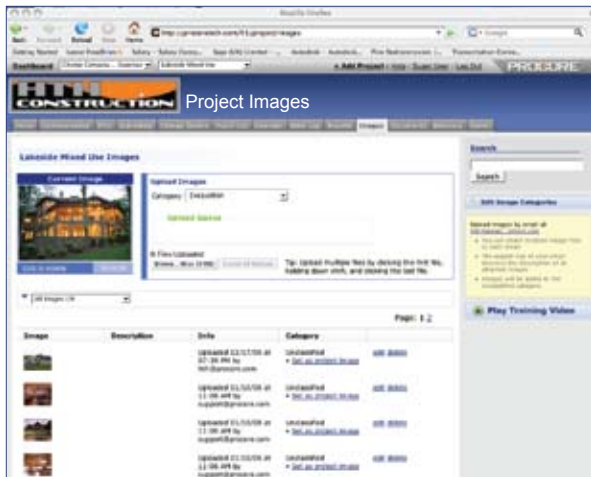

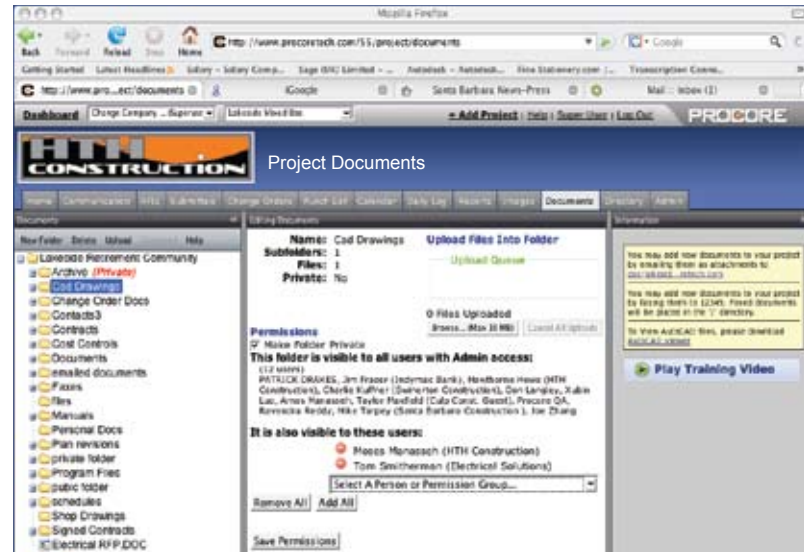

Every project document archive has its own email address. Just attach a file to an email to send it straight into Procore.

Secure Document Storage

Procore gets the right project information to the people who need it, from any web connection. No more chasing down documents, searching for email attachments, or paying for plan copies. Procore's online archive gives you unlimited file storage for all of your project documents, with no extra fees for disk space or bandwidth usage.

Procore's permissions feature ensures that users only see the documents they need. Individual files or entire directories within Procore can be marked private, and team members can be granted access with a click of the computer mouse.

Unlimited Space for Digital Photos

A picture can be worth 10,000 words on a construction project – if you can find that digital photo on your computer. With Procore, you'll never lose a digital photo again. Upload as many photos as you like to Procore's Image Archive. Your digital photos will be securely saved according to the categories you specify. Multi-file upload makes it a snap to add pictures, and the archive email address lets you send photos into Procore as email attachments.

PROCORE™ Also Includes:

Project Scheduling & Integration

View the project schedule right in your web browser.

Procore works with the scheduling software you already use - including Microsoft Project and Primavera products. Just click on a task link in Procore to edit your schedule.

Communications & Collaboration

A single view for all of your project emails. Project emails from any user flow directly into Procore and are automatically organized by topic.

Procore works with any email system, including MS Outlook, and any device, including laptops and Blackberry.
